**SUBJECT:** Ecology Post-Construction Stormwater Template and Help File

The Office of Environmental Services and the Office of Design Policy and Support have developed an Ecology Post-Construction Stormwater Report Template and an Ecology Post-Construction Stormwater Report Help File. The timeline for submittals of the Ecology Post-Construction Stormwater Report is in the Template within the Ecology Post-Construction Stormwater Guidance section. The Ecology Post-Construction Stormwater Report Template is applicable to projects for which project ecologists have determined water quality analysis is needed if the project does not yet have concept approval as of July 15<sup>th</sup>, 2021. On projects for which project ecologist have determined water quality analysis is needed but concept approval was prior to July 15<sup>th</sup>, 2021 the project ecologists may use this Template and Help file as a point of reference, however, use of the Template and Help file is not required.

The Ecology Post-Construction Stormwater Report Template and Help File are available for download from the GDOT R.O.A.D.S webpage at:  
<http://www.dot.ga.gov/PS/DesignManuals/DesignGuides>.

If you have questions concerning the Ecology Post Construction Stormwater Report or the Help File, please email [EnvBMP@dot.ga.gov](mailto:EnvBMP@dot.ga.gov).
